INDEPENDENT AUDITORS' REPORT **To the Directors of the St Patrick's Co-operative Credit Union Limited** **Report on the Audit of the Financial Statements**

Opinion

We have audited the financial statements of St. Patrick's Co-operative Credit Union ('the Credit Union'), which comprise the statement of financial position as at 31ST December 2021, and the Separate statements of income, comprehensive income, changes in equity and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies. In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Credit Union as at 31ST December 2021, and financial performance and cash flows for the year then ended in accordance with International Financial Reporting Standards ('IFRSs').

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing ('ISAs'). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Credit Union in accordance with the International Ethics Standards Board for Accountants' ('IESBA') International Code of Ethics for Professional Accountants (including International Independence Standards) ('IESBA Code'), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and those charged with governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error. In preparing the financial statements, management is responsible for assessing the Credit Union's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Credit Union's or to cease operations, or has no realistic alternative but to do so. The management is responsible for overseeing the Credit Union's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

INDEPENDENT AUDITORS' REPORT
To the Directors of the St Patrick's Co-Operative Credit Union Limited
Report on the Audit of the Financial Statements

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Credit Union's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Credit Union's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our Auditor's Report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our Auditor's Report. However, future events or conditions may cause the Credit Union to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

ST PATRICK'S CO-OPERATIVE CREDIT UNION LIMITED**NOTES TO THE FINANCIAL STATEMENTS**
FOR THE YEAR ENDED 31ST DECEMBER 2021
(Expressed in Eastern Caribbean Dollars)**1. Nature of operations**

The principal activity of the St Patrick's Co-operative Credit Union Limited ("the Credit Union") is to encourage financial prudence through savings and provide loans and other financial products and services to its members.

2. General information and statement of compliance with IFRS St. Patrick's Co-operative Credit Union Limited was registered on 5th November, 1969 under the Co-operative Societies Law Caption 119 of the Revised Laws of Montserrat.

The registered office of the Credit Union is located at the St Patrick's Credit Union House Brades Montserrat, West Indies.

The accompanying financial statements are the financial statements of the Credit Union and have been prepared in accordance with International Financial Reporting Standards (IFRS) and International Financial Reporting Standards Interpretations Committee (IFRIC) interpretations as issued by the International Accounting Standards Board (IASB) under the historical cost convention, as modified by the revaluation of land and buildings and financial assets at fair value through other comprehensive income. The measurement bases are fully described in the summary of accounting policies.

3. Basis of Preparation**(a) Statement of Compliance**

These financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) adopted by the International Accounting Standard Board (IASB). These financial statements were approved by the Board of Directors on June 28, 2023.

(b) Going Concern

These financial statements have been prepared on the going concern basis, which assumes that the Credit Union will continue in operation in the foreseeable future. They do not purport to give effect to adjustments, if any, that may be necessary should the Credit Union be unable to realise its assets and discharge its liabilities in other than the ordinary course of business.

ST PATRICK'S CO-OPERATIVE CREDIT UNION LIMITED

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31ST DECEMBER 2021
(Expressed in Eastern Caribbean Dollars)

3. Basis of Preparation (Cont'd)

(c) Adoption of New or Revised Standards, Amendments to Standards and Interpretations

The Credit Union has adopted the following amendments to standards and new interpretations effective from January 1, 2020. Except as otherwise indicated, the adoption of these amendments to standards and interpretations did not have any significant impact on the Credit Union's financial statements.

• **COVID-19 Related Rent Concessions (Amendments to IFRS 16) Effective 1 June 2020**

IFRS 16 was amended to provide a practical expedient for lessees accounting for rent concessions that arise as a direct consequence of the COVID-19 pandemic and satisfy the following criteria:

- (a) The change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
- (b) The reduction in lease payments affects only payments originally due on or before 30 June 2021; and
- (c) There is no substantive change to other terms and conditions of the lease.

Rent concessions that satisfy these criteria may be accounted in accordance with the practical expedient, which means the lessee does not assess whether the rent concession meets the definition of a lease modification. Lessees apply other requirements in IFRS 16 in accounting for the concession.

• **Interest rate Benchmark Reform – IBOR 'phase 2' (Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16)**

IBOR reform Phase 2 includes a number of reliefs and additional disclosures. The reliefs apply upon the transition of a financial instrument from IBOR to a risk-free-rate (RFR). Changes to the basis for determining contractual cash flows as a result of interest rate benchmark reform are required as a practical expedient to be treated as changes to a floating interest rate, provided that, for the financial instrument, the transition from the IBOR benchmark rate to RFR takes place on an economically equivalent basis.

These amendments have no material effect on the Credit Union.

Several other amendments and interpretations apply for the first time in 2021, but do not have an impact on the Credit Union's financial statements. The new standards and interpretations are effective for annual periods beginning on or after January 1, 2021, unless otherwise stated.

ST PATRICK'S CO-OPERATIVE CREDIT UNION LIMITED**NOTES TO THE FINANCIAL STATEMENTS**
FOR THE YEAR ENDED 31ST DECEMBER 2021
(Expressed in Eastern Caribbean Dollars)**3. Basis of Preparation (Cont'd)****(d) New Standards and Interpretation of amendments to existing standards issued but not effective during the year**

The new and amended standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Credit Union's financial statements are disclosed below. The Credit Union intends to adopt these standards, if applicable, when they become effective.

The following amendments are effective for the period beginning 1 January 2022:

- Onerous Contracts - Cost of Fulfilling a Contract (Amendments to IAS 37);
- Covid-19 related rent concessions beyond June 30, 2021 (Amendments to IFRS 16);
- Property, Plant and Equipment: Proceeds before Intended Use (Amendments to IAS 16)
- Annual Improvements to IFRS Standards 2018-2020
- References to Conceptual Framework (Amendments to IFRS 3)

The following amendments are effective for the period beginning 1 January 2023:

- Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2)
- Definition of Accounting Estimates (Amendments to IAS 8); and
- Deferred Tax Related to Assets and Liabilities arising from a Single Transaction (Amendments to IAS 12)

New standards and interpretations of amendments not yet effective:

In January 2020, IASB issued amendments to IAS 1, which clarify the criteria used to determine whether liabilities are classified as current or non-current. These amendments clarify that current and non-current classification is based on whether an entity has a right at the end of the reporting period to deter settlement of the liability for at least twelve months after the reporting period. The amendments also clarify that 'settlement' includes the transfer of cash, goods, services or equity instruments unless the obligation to transfer equity instruments arises from a conversion feature classified as an equity instrument separately from the liability component of a compound financial instrument. The amendments were originally effective for annually reporting periods beginning on or after January 1, 2022. However in May 2020, the effective date was deferred to annual reporting periods beginning on or after January 1, 2023.

ST PATRICK'S CO-OPERATIVE CREDIT UNION LIMITED**NOTES TO THE FINANCIAL STATEMENTS**
FOR THE YEAR ENDED 31ST DECEMBER 2021
(Expressed in Eastern Caribbean Dollars)**3. Basis of Preparation (Cont'd)****(d) New Standards and Interpretation of amendments to existing standards issued but not effective during the year (Cont'd)**

New standards and interpretations of amendments not yet effective: (Cont'd)

In response to feedback and inquiries from stakeholders, in December 2020, the IFRS Interpretations Committee (IFRIC) issued a Tentative Agenda Decision, analysing the applicability of the amendments to their scenarios. However given the comments received and concerns raised on some aspects of amendments, April 2021, IFIC decided not to finalise the agenda decision and referred the matter to the IASB. In its June 2021 meeting, the IASB tentatively decided to amend the requirements of IAS 1 with respect to the classification of liabilities subject to conditions and disclosure of information about such conditions and to deter the effective date of the 2020 amendment by at least one year.

The Credit Union is currently assessing the impact of these new accounting standards and amendments.

4. Summary of significant accounting policies**4.1 Overall considerations**

The significant accounting policies set out below have been applied consistently by the Credit Union to all periods presented in these financial statements, except as otherwise stated.

4.2 Revenue recognition

Revenue arises from the rendering of services. The Credit Union recognises revenue when: the amount of revenue can be reliably measured; it is probable that future economic benefits will flow to the entity; and specific criteria have been met for the Credit Union's activities. It is measured at the fair value of consideration received or receivable. Revenue is recognised as follows:

(i) Interest Income

Interest income is recognised in profit or loss, using the effective interest method. The effective interest rate is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial asset or liability.

The Credit Union's calculation of the effective interest rate includes all material fees received, transactions costs, discounts or premiums that are an integral part of the effective interest rate. Transactions costs are incremental costs that are directly attributable to the acquisition, issue or disposal of financial asset or liability.

ST PATRICK'S CO-OPERATIVE CREDIT UNION LIMITED**NOTES TO THE FINANCIAL STATEMENTS**
FOR THE YEAR ENDED 31ST DECEMBER 2021
(Expressed in Eastern Caribbean Dollars)**4. Summary of significant accounting policies (Cont'd)****4.2 Revenue recognition (Cont'd)***(ii) Fees and other income*

The Credit Union earns fee income from financial services it provides to its members. Fee income is recognised at an amount that reflects the consideration to which the Credit Union expects to be entitled in exchange for providing the services.

The performance obligations as well as timing of their satisfaction, are identified and determined, at the inception of the contract. The Credit Union's revenue contracts do not include multiple performance obligations.

When the Credit Union provides services to its members, consideration is invoiced and generally due immediately upon satisfaction of a service provided at a point in time or at the end of a contract period for a service provided over time.

4.3 Foreign currency translation***Functional and presentation currency***

These financial statements are presented in Eastern Caribbean Dollars, which is the Credit Union's functional and presentation currency. All financial information presented in Eastern Caribbean Dollars has been rounded to the nearest dollar.

Foreign currency transactions and balances

Transactions in foreign currencies are translated at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated into Eastern Caribbean Dollars at the foreign exchange rate ruling at that date. Foreign exchange differences arising on translation are recognised in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated to Eastern Caribbean Dollars at foreign exchange rates ruling at the dates the values were determined.

ST PATRICK'S CO-OPERATIVE CREDIT UNION LIMITED**NOTES TO THE FINANCIAL STATEMENTS**
FOR THE YEAR ENDED 31ST DECEMBER 2021
(Expressed in Eastern Caribbean Dollars)**4. Summary of significant accounting policies (Cont'd)****4.4 Leases***Credit Union as a lessee*

The Credit Union applies a single recognition and measurement approach for all leases except for short-term leases and leases of low-value assets. The Credit Union recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

The Credit Union recognises right-of-use assets at the commencement date of the lease (i.e., the date underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the lease term.

Credit Union as a lessor

Leases in which the Credit Union does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms and is included in revenue in the statement of profit or loss due to its operating nature.

Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

4.5 Financial Instruments

The Credit Union recognises a financial asset or liability in the statement of financial position when it becomes party to the contractual provision of the instruments.

(a) Initial recognition and measurement of financial instruments

At initial recognition, the Credit Union measures its financial assets and financial liabilities at their fair values plus or minus, in the case of a financial assets or financial liability not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability such as fees and commissions.

If the Credit Union determines that the fair value of its financial assets and liabilities at initial recognition differs from the transaction price, the difference is recognised as follows:

ST PATRICK'S CO-OPERATIVE CREDIT UNION LIMITED**NOTES TO THE FINANCIAL STATEMENTS**
FOR THE YEAR ENDED 31ST DECEMBER 2021
(Expressed in Eastern Caribbean Dollars)**4. Summary of significant accounting policies (Cont'd)****4.5 Financial Instruments (Cont'd)****(a) Initial recognition and measurement of financial instruments (Cont'd)**

- If the fair value is evidenced by a quoted price in an active market for an identical asset or liability (i.e Level 1 input) or based on a valuation technique that uses only data from the observable markets the difference between the fair value at initial recognition and the transaction price is recognised as a gain or loss.
- In all other cases the difference between the fair value at initial recognition and the transaction price is deferred. After initial recognition, the deferred difference is recognised as a gain or loss only to the extent that it arises from a change in a factor (including time) that market participants would take into account when pricing the asset or liability.

(b) Classification and subsequent measurement of financial assets

The Credit Union classifies the financial assets as subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss on the basis of both:

- (i) the Credit Union's business model for managing the financial assets; and
- (ii) the contractual cash flow characteristics of the financial asset.

Based on these factors, the Credit Union classifies its asset into one of the following three measurements:

Financial assets at amortised cost

A financial asset is measured at amortised cost if the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows are solely payments of principal and interest on principal amount outstanding.

Amortised cost is the amount at which the financial asset or financial liability is measured at initial recognition minus the principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount and, for financial assets, adjusted for any loss allowance.

ST PATRICK'S CO-OPERATIVE CREDIT UNION LIMITED**NOTES TO THE FINANCIAL STATEMENTS**
FOR THE YEAR ENDED 31ST DECEMBER 2021
(Expressed in Eastern Caribbean Dollars)**4. Summary of significant accounting policies (Cont'd)****4.5 Financial Instruments (Cont'd)****(b) Classification and subsequent measurement of financial assets (Cont'd)***Financial assets at amortised cost (Cont'd)*

The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial asset or financial liability to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Credit Union estimates the expected cash flows by considering all the contractual terms of the financial instrument, but does not consider the expected credit losses.

The calculation includes all fees and points paid or received between parties to the contract that are an integral part of the effective interest rate, transaction costs, and all other premiums or discounts.

The Credit Union's financial assets measured at amortised cost include loan to members, investments in fixed deposits and treasury bills and cash and cash equivalents.

Financial assets at fair value through other comprehensive income (FVTOCI)

A financial asset is measured at FVTOCI if the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through profit or loss (FVTPL)

A financial asset is measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income. However, an entity may make an irrevocable election at initial recognition for particular investments in equity instruments that would otherwise be measured at fair value through profit or loss to present subsequent changes in fair value in other comprehensive income. The Credit Union does not have any assets measured at FVTPL.

ST PATRICK'S CO-OPERATIVE CREDIT UNION LIMITED**NOTES TO THE FINANCIAL STATEMENTS**
FOR THE YEAR ENDED 31ST DECEMBER 2021
(Expressed in Eastern Caribbean Dollars)**4. Summary of significant accounting policies (Cont'd)****4.5 Financial Instruments (Cont'd)****(b) Classification and subsequent measurement of financial assets (Cont'd)***Reclassifications*

If the business model under which the Credit Union holds financial asset changes, the financial assets affected are reclassified. The classification and measurement requirements related to the new category apply prospectively from the first day of the first reporting period following the change in business model that results in reclassifying the Credit Union's financial assets. During the current financial year and previous accounting period there were no changes in the business models under which the Credit Union holds financial assets and therefore no reclassifications were made except for the new classifications under IFRS 9. Changes in contractual cash flows are considered under the accounting policy on Modification of loans to members in Note 4.5 (d) and De-recognition of financial assets in Note 4.5(f).

(c) Impairment of Financial Assets

The Credit Union recognises a loss allowance for expected credit losses (ECL) on financial assets measured at amortised cost and the exposure arising from loan commitments and financial guarantee contracts. The expected credit losses are assessed on a forward looking basis. The Credit Union's measurement of ECL reflects:

- a) an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- b) the time value of money; and
- c) reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The financial assets are grouped on the basis of shared credit risk characteristics to determine the average credit losses for each group of assets. The Credit Union considers this approach to be a reasonable estimate of the probability-weighted amount. The lifetime expected credit losses for the nonperforming financial assets are assessed on an individual basis. The Credit Union considers if there have been significant increases in credit risk since initial recognition – whether assessed on an individual or collective basis considering all reasonable and supportable information, including that which is forward-looking. At each reporting date, the Credit Union measures the loss allowance at an amount equal to the lifetime expected credit losses, if the credit risk on that financial instrument has increased significantly since initial recognition.

ST PATRICK'S CO-OPERATIVE CREDIT UNION LIMITED**NOTES TO THE FINANCIAL STATEMENTS**
FOR THE YEAR ENDED 31ST DECEMBER 2021**4. Summary of significant accounting policies (Cont'd)****4.5 Financial Instruments (Cont'd)****(c) Impairment of Financial Assets (Cont'd)**

The Credit Union considers the following factors in assessing changes in credit risk since initial recognition:

- significant changes in internal price indicators of credit risk;
- changes in the rates or terms of an existing instrument that would be significantly different if the instrument was newly issued (e.g. more stringent covenants);
- significant increases in credit risk on other financial instruments from the same borrower;
- an actual or forecast significant adverse changes in the business, financial or economic conditions that are expected to significantly affect the borrower's ability to meet its debt obligations (e.g. increase in interest rates and unemployment rates);
- an actual or expected significant change in the financial instrument's external credit rating;
- an actual or expected internal credit rating downgrade for the borrower or decrease in behavioural scoring used to assess credit risk internally;
- an actual or expected significant change in the operating results of the borrower;
- significant changes in the value of the collateral supporting the obligation or in the quality of guarantees or credit enhancements reductions in financial support from a parent entity that are expected to reduce the borrowers incentive to make scheduled contractual payments;
- expected breaches of contract that may, for example, lead to covenant waivers or amendments, or interest payment holidays;
- existing or expected adverse changes in the regulatory, economic, or technological environment that significantly affect, or are expected to affect, the borrower's ability to meet its debt obligations;
- changes in the Credit Union's management approach in relation to the financial instrument (e.g. specific intervention with the borrower, more active or close monitoring of the instrument by the Credit Union);
- significant changes in the expected performance and behaviour of the borrower including changes in the payment status of borrowers in the (e.g. expected increase in delayed contractual payments); and
- past due information, including the rebuttable presumption of more than 30 days past due.

ST PATRICK'S CO-OPERATIVE CREDIT UNION LIMITED**NOTES TO THE FINANCIAL STATEMENTS**
FOR THE YEAR ENDED 31ST DECEMBER 2021**4. Summary of significant accounting policies (Cont'd)****4.5 Financial Instruments (Cont'd)****(c) Impairment of Financial Assets (Cont'd)**

ECLs are required to be measured through a loss allowance at an amount equal to:

- 12-month ECL, i.e. lifetime ECL that result from those default events on the financial instrument that are possible within 12 months after the reporting date, (referred to as Stage 1); or
- full lifetime ECL, i.e. lifetime ECL that result from all possible default events over the life of the financial instrument, (referred to as Stage 2 and Stage 3).

A loss allowance for full lifetime ECL is required for a financial instrument if the credit risk on that financial instrument has increased significantly since initial recognition. For all other financial instruments, ECLs are measured at an amount equal to the 12-month ECL.

ECLs are a probability-weighted estimate of the present value of credit losses. These are measured as the present value of the difference between the cash flows due to the Credit Union under the contract and the cash flows that the Credit Union expects to receive arising from the weighting of multiple future economic scenarios, discounted at the asset's EIR.

- for undrawn loan commitments the ECL is the difference between the present value of the difference between the contractual cash flows that are due to the Credit Union if the holder of the commitment draws down the loan and the cash flows that the Credit Union expects to receive if the loan is drawn down; and
- for guarantee contracts, the ECL is the difference between the expected payments to reimburse the holder of the guaranteed debt instrument less any amounts that the Credit Union expects to receive from the holder, the debtor or any other party.

The Credit Union measures ECL on an individual basis, or on a collective basis for portfolios of loans that share similar economic risk characteristics. The measurement of the loss allowance is based on the present value of the asset's expected cash flows using the asset's original EIR, regardless of whether it is measured on an individual basis or a collective basis.

A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Credit-impaired financial assets are referred to as Stage 3 assets.

ST PATRICK'S CO-OPERATIVE CREDIT UNION LIMITED

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31ST DECEMBER 2021
(Expressed in Eastern Caribbean Dollars)

4. Summary of significant accounting policies (Cont'd)

4.5 Financial Instruments (Cont'd)

(c) Impairment of Financial Assets (Cont'd)

Evidence of credit-impaired includes observable data about the following events:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or past due event;
- the lender of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession that the lender would not otherwise consider;
- the disappearance of an active market for a security because of financial difficulties;
- or
- the purchase of a financial asset at a deep discount that reflects the incurred credit losses.

It may not be possible to identify a single discrete event instead, the combined effect of several events may have caused financial assets to become credit-impaired. The Credit Union assesses whether debt instruments that are financial assets measured at amortised cost or FVTOCI are credit-impaired at each reporting date. To assess if sovereign and corporate debt instruments are credit impaired, the Credit Union considers factors such as bond yields, credit ratings and the ability of the borrower to raise funding.

A loan is considered credit-impaired when a concession is granted to the borrower due to a deterioration in the borrower's financial condition, unless there is evidence that as a result of granting the concession the risk of not receiving the contractual cash flows has reduced significantly and there are no other indicators of impairment. For financial assets where concessions are contemplated but not granted the asset is deemed credit impaired when there is observable evidence of credit-impairment including meeting the definition of default.

The definition of default (see below) includes unlikelihood to pay indicators and a backstop if amounts are overdue for 90 days or more.

Definition of default

Critical to the determination of ECL is the definition of default. The definition of default is used in measuring the amount of ECL and in the determination of whether the loss allowance is based on 12-month or lifetime ECL, as default is a component of the probability of default (PD) which affects both the measurement of ECLs and identification of significant increase in credit risk

- the borrower is past due more than 90 days on any material credit obligation to the Credit Union; or
- the borrower is unlikely to pay its credit obligations to the Credit Union in full.

ST PATRICK'S CO-OPERATIVE CREDIT UNION LIMITED**NOTES TO THE FINANCIAL STATEMENTS**
FOR THE YEAR ENDED 31ST DECEMBER 2021
(Expressed in Eastern Caribbean Dollars)**4. Summary of significant accounting policies (Cont'd)****4.5 Financial Instruments (Cont'd)****(c) Impairment of Financial Assets (Cont'd)**

Definition of default (Cont'd)

The definition of default is used by the Credit Union for accounting purposes as well as for internal credit risk management purposes and is broadly aligned to the regulatory definition of default. The definition of default is appropriately tailored to reflect different characteristics of different types of assets. Overdrafts are considered as being past due once the customer has breached an advised limit or has been advised of a limit smaller than current amount outstanding.

When assessing if the borrower is unlikely to pay its credit obligation, the Credit Union considers both qualitative and quantitative indicators. Quantitative indicators, such as overdue status and non-payment on another obligation of the same counterparty are key inputs in this analysis.

The Credit Union uses a variety of sources of information to assess default which are either developed internally or obtained from external sources. As noted in the definition of credit impaired financial assets above, default is evidence that an asset is credit impaired.

Therefore, credit impaired assets will include defaulted assets, but will also include other non-defaulted given the definition of credit impaired is broader than the definition of default.

(d) Modification of loans to members

When the Credit Union renegotiates or otherwise modifies, the contractual cash flows of its customer loans, the Credit Union assesses whether or not the new terms are substantially different from the original terms of the agreement. The Credit Union derecognises the original loan if the terms are substantially different and recognises the new loan at its fair value. The Credit Union also recalculates the new effective interest rate for the loan.

The date of the modification is considered to be the date of initial recognition of the new loan when applying the impairment requirements and also assessing whether a significant increase in credit risk has occurred. The Credit Union also considers whether there may be evidence that the modified loan is credit-impaired at initial recognition. In this situation, the loan is recognised as an originated credit-impaired financial asset.

This might occur, for example in a situation in which there was a substantial modification of a distressed assets as a result of the borrower being unable to make the originally agreed payments. Differences in the carrying amount are recognised as a gain or loss on derecognition in the profit or loss.

ST PATRICK'S CO-OPERATIVE CREDIT UNION LIMITED**NOTES TO THE FINANCIAL STATEMENTS**
FOR THE YEAR ENDED 31ST DECEMBER 2021
(Expressed in Eastern Caribbean Dollars)**4. Summary of significant accounting policies (Cont'd)****4.5 Financial Instruments (Cont'd)****(d) Modification of loans to members (Cont'd)**

If the new terms are not substantially different the original loan is not derecognised. The Credit Union recalculates the gross carrying amount of the loan and recognises a modification gain or loss in the profit and loss.

The gross carrying amount of the loan is recalculated as the present value of the renegotiated contractual cash flows discounted at the loan's original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets). Any costs or fees incurred adjust the carrying amount of the modified loan and are amortised over the remaining term of the modified financial asset.

(e) Write Offs

The Credit Union directly reduces the gross carrying amount of a financial asset when the Credit Union has no reasonable expectations of recovering the financial asset in its entirety or a portion thereof. A write-off constitutes a derecognition event. This is the case when the Credit Union determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. A write-off constitutes a derecognition event. The Credit Union may apply enforcement activities to financial assets written off. Recoveries resulting from the Credit Union's enforcement activities will result in impairment gains, which will be presented in net impairment loss on financial assets' in the statement of profit or loss.

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the asset and settle the liability simultaneously.

(f) Derecognition of financial assets

The Credit Union derecognises financial assets when the contractual rights to the cash flows from the financial assets expire or when the contractual rights to receive the cash flows of the financial asset are retained but the contractual obligation to pay the cash flows to one or more recipients is assumed in an arrangement where:

- (i) The Credit Union has no obligation to pay amounts to the eventual recipients unless it collects equivalent amounts from the original asset. Short-term advances by the entity with the right of full recovery of the amount lent plus accrued interest at market rates do not violate this condition;
- (ii) The Credit Union is prohibited by the terms of transfer contract from selling or pledging the original asset other than a security to the eventual recipients for the obligation to pay them cash flows; and

ST PATRICK'S CO-OPERATIVE CREDIT UNION LIMITED**NOTES TO THE FINANCIAL STATEMENTS**
FOR THE YEAR ENDED 31ST DECEMBER 2021
(Expressed in Eastern Caribbean Dollars)**4. Summary of significant accounting policies (Cont'd)****4.5 Financial Instruments (Cont'd)****(f) Derecognition of financial assets (Cont'd)**

- (iii) The Credit Union has an obligation to remit any cash flows it collects on behalf of the eventual recipients without material delay. In addition, the entity is not entitled to reinvest such cash flows, except for investments in cash or cash equivalents during the short settlement period from the collection date to the date of required remittance to the eventual recipients, and interest earned on such investments is passed to the eventual recipients.

(g) Transfer of financial assets

The Credit Union enters into transactions resulting in transfers of financial assets. A transfer of a financial asset may result in derecognition of the asset in its entirety, recognition of the Credit Union's retained interest in the asset and an associated liability for amounts it may have to pay, or continued recognition of the financial asset in its entirety and recognition of a collateralised borrowing for the proceeds received.

When the transfer does not result in derecognition, it is viewed as a secured financing transaction, with any consideration received resulting in a corresponding liability. The Credit Union is not entitled to use these financial assets for any other purposes. The most common transactions under which the Credit Union has continued involvement of the transferred assets are:

- (i) Sale and repurchase agreements: under these agreements the Credit Union may sell securities subject to a commitment to repurchase them. The securities are retained on the balance sheet as the Credit Union retains substantially all the risks and rewards of ownership. The consideration received is accounted for as a financial liability at amortised cost, unless it is designated at FVTPL.

ST PATRICK'S CO-OPERATIVE CREDIT UNION LIMITED**NOTES TO THE FINANCIAL STATEMENTS**
FOR THE YEAR ENDED 31ST DECEMBER 2021
(Expressed in Eastern Caribbean Dollars)**4. Summary of significant accounting policies (Cont'd)****4.5 Financial Instruments (Cont'd)****(g) Transfer of financial assets (Cont'd)**

- (ii) Securities lending agreements: under these agreements the Credit Union lends securities to other banks and/or customers for a fee and receives collateral in the form of cash. The securities are retained on the balance sheet as the Credit Union retains substantially all the risks and rewards of ownership. The cash collateral received is accounted for as a financial liability at amortised cost, unless it is designated at FVTPL.
- (iii) Securitisations: the Credit Union uses securitisations as a source of finance and a means of risk transfer. Such transactions generally result in the transfer of contractual cash flows from portfolios of financial assets to holders of issued debt securities. Securitisations may, depending on the individual arrangement, result in continued recognition of the securitised assets and the recognition of the debt securities issued in the transaction; lead to partial continued recognition of the assets to the extent of the Credit Union's continuing involvement in those assets or to derecognition of the assets and the separate recognition, as assets or liabilities, of any rights and obligations created or retained in the transfer.
- (iv) Full derecognition only occurs when the Credit Union transfers both its contractual right to receive cash flows from the financial assets or retains the contractual rights to receive the cash flows, but assumes a contractual obligation to pay the cash flows to another party without material delay or reinvestment, and also transfers substantially all the risks and rewards of ownership, including credit risk, prepayment risk and interest rate risk.

(h) Financial Liabilities**Classification and subsequent measurement of financial liabilities**

In both the current and prior period, financial liabilities are classified as subsequently measured at amortised cost. Other liabilities are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Other liabilities are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business, if longer). If not, they are presented as non-current liabilities. Other liabilities are recognised initially at fair value subsequently measured at amortised cost using the effective interest method.

Derecognition of financial liabilities

Financial liabilities are derecognised when they are extinguished (i.e. when the obligation specific in the contract is discharged, cancelled or expires).

ST PATRICK'S CO-OPERATIVE CREDIT UNION LIMITED**NOTES TO THE FINANCIAL STATEMENTS**
FOR THE YEAR ENDED 31ST DECEMBER 2021**(Expressed in Eastern Caribbean Dollars)****4. Summary of significant accounting policies (Cont'd)****4.6 Cash and Cash Equivalents**

Cash and cash equivalents include cash on hand, unrestricted balances held with banks and highly liquid financial assets with original maturities of three months or less from the acquisition date that are subject to an insignificant risk of changes in the fair value, and are used by the Credit Union in the management of its short-term commitments. Bank overdraft which is repayable on demand forms an integral part of the business and is included as a component of cash and cash equivalents for the purpose of the statement of cash flows.

Cash and cash equivalents are measured at amortised cost.

4.7 Property and equipment and depreciation**(a) Initial measurement**

Property and equipment are initially stated at historical cost less accumulated depreciation. Historical cost includes expenditure that is directly attributed to the acquisition of items.

(b) Subsequent measurement**Land and building**

After recognition, land and building whose fair value can be measured reliably are carried at a revalued amount, being its fair value at the date of the revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses. Revaluation is made with sufficient regularity to ensure that the carrying amount does not differ materially from that which would be determined using fair value at the end of reporting period.

If an asset's carrying amount is increased as a result of a revaluation, the increase is recognised in other comprehensive income and accumulated in members' equity under the heading of revaluation reserves (note 18). However, the increase is recognised in profit or loss to the extent that it reverses a revaluation decrease of the same asset previously recognised in profit or loss.

If an asset's carrying amount is decreased as a result of revaluation, the decrease is recognised in profit or loss. However, the decrease is recognised in other comprehensive income to the extent of any credit balance existing in the revaluation reserves in respect of that asset.

ST PATRICK'S CO-OPERATIVE CREDIT UNION LIMITED**NOTES TO THE FINANCIAL STATEMENTS**
FOR THE YEAR ENDED 31ST DECEMBER 2021
(Expressed in Eastern Caribbean Dollars)**4. Summary of significant accounting policies (Cont'd)****4.7 Property and equipment and depreciation (Cont'd)****(b) Subsequent measurement (Cont'd)**

Land and building (Cont'd)

The decrease recognised in other comprehensive income reduces the amount accumulated in members' equity under the heading of revaluation reserve.

When a building is revalued, any accumulated depreciation at the date of the revaluation is restated proportionately with the change in the gross carrying amount of the asset so that the carrying amount of the asset after revaluation equals its revalued amount.

Furniture, equipment and motor vehicle

After recognition, an item of property and equipment is carried at its cost less any accumulated depreciation and any accumulated impairment losses.

(c) Depreciation

Depreciation is calculated on the straight line method to write down the cost less estimated residual values of the assets. The following depreciation rates are applied:

Building	2%
Equipment	25%
Furniture and Fixtures	10%

Land is not depreciated.

The assets' residual values and estimated useful lives are reviewed and adjusted, if appropriate, at each reporting date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Gains and losses on disposals are determined by comparing proceeds with carrying amounts. These are included in profit or loss.

ST PATRICK'S CO-OPERATIVE CREDIT UNION LIMITED**NOTES TO THE FINANCIAL STATEMENTS**
FOR THE YEAR ENDED 31ST DECEMBER 2021
(Expressed in Eastern Caribbean Dollars)**4. Summary of significant accounting policies (Cont'd)****4.8 Impairment of non-financial assets**

All individual assets or cash-generating units are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

An impairment loss is recognised for the amount by which the asset's or cash-generating unit's carrying amount exceeds its recoverable amount, which is higher of fair value less costs of disposal and value-in-use.

To determine the value-in-use, management estimates expected future cash flows from each cash-generating unit and determines a suitable interest rate in order to calculate the present value of those cash flows.

Discount factors are determined individually for each cash-generating unit and reflect management's assessment respective risk profiles, such as market and asset-specific risk factors.

All assets are subsequently reassessed for indications that an impairment loss previously recognised may no longer exist. An impairment loss is reversed only to the extent that the asset's or cash-generating unit's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss has been recognised.

4.9 Provisions

Provision for legal disputes or other claims are recognised when the Credit Union has a present or legal or constructive obligation as a result of a past event, it is probable that an outflow of economic resources will be required from the Credit Union to settle the obligation and amounts can be estimated reliably. Timing or amount of the outflow may still be uncertain.

Provisions are not recognised for future operating losses. Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the reporting date, including the risks and uncertainties associated with the present obligation. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. Provisions are discounted to their present values, where the time value of money is material.

ST PATRICK'S CO-OPERATIVE CREDIT UNION LIMITED

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31ST DECEMBER 2021
 (Expressed in Eastern Caribbean Dollars)

4. Summary of significant accounting policies (Cont'd)

4.9 Provisions (Cont'd)

Any reimbursement that the Credit Union can be virtually certain to collect from a third party with respect to the obligation that is recognised as a separate asset. However, this asset may not exceed the amount of related provision. In those cases where the possible outflow of economic resources as a result of present obligations is considered improbable or remote, no liability is recognised.

4.10 Employee benefits

Obligations for contributions to defined contributions pension plans are recognised as an expense in profit or losses incurred.

4.11 Equity, reserves and dividend payments

a) Permanent shares

Permanent shares issued by the Credit Union are classified as equity only to the extent that they do not meet the definition of a financial liability.

b) Reserves

Statutory reserves comprise amounts required to be set aside as stipulated by the Co-operative Societies Act (See Note 17).

General reserves comprise donated capital, unclaimed deposits and entrance fees set aside as stipulated in the Credit Union's By-laws.

Revaluation reserved comprise gains and losses from the revaluation of land and building (See Note 18).

Other reserves comprise provision for loan losses recognised for regulatory purposes.

c) Retained earnings

Retained earnings include all current and prior period retained profits.

d) Dividends

Shares that contain redemption features subject to the Credit Union maintaining adequate regulatory capital are accounted for using the partial treatment requirements of IFRIC 2, Members Shares in Cooperative Entities and Similar Instruments.

Dividends paid are recognised in equity in the period in which they are approved by the Credit Union's members at the Annual General Meeting.

Operating expenses are recognised in profit or loss upon utilisation of the service or as incurred.

ST PATRICK'S CO-OPERATIVE CREDIT UNION LIMITED**NOTES TO THE FINANCIAL STATEMENTS**
FOR THE YEAR ENDED 31ST DECEMBER 2021
(Expressed in Eastern Caribbean Dollars)**5. Significant management judgements in applying accounting policies and estimation uncertainty:**

In the application of the Credit Union's accounting policies, which are described in note 4, the directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The estimates and assumptions that have the most significant effect on the amounts recognised on the financial statements are described below.

5.1 Business model assessment

Classification and measurement of financial assets depends on the results of the SPPI and the business model test. The Credit Union determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective.

This assessment includes judgement reflecting all relevant evidence including how performance of the assets is evaluated and their performance is measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Credit Union monitors financial assets measured at amortised cost or fair value through other comprehensive income that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held.

Monitoring is part of the Credit Union's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

5.2 Measurement of the expected credit loss allowance

The measurement of the expected credit loss allowance for the financial assets measured at amortized cost FVTPL or FVTOCI is an area that requires the use of modelling and assumptions about future economic conditions and credit behaviours (e.g. the likelihood of customers defaulting and the resulting losses).

ST PATRICK'S CO-OPERATIVE CREDIT UNION LIMITED**NOTES TO THE FINANCIAL STATEMENTS**
FOR THE YEAR ENDED 31ST DECEMBER 2021
(Expressed in Eastern Caribbean Dollars)**5. Significant management judgements in applying accounting policies and estimation uncertainty: (Cont'd)****5.2 Measurement of the expected credit loss allowance (Cont'd)**

A number of significant judgements are also required in applying the account requirements for measuring ECL such as:

- Determining credit for significant increase in credit risk
- Choosing appropriated model and assumptions for the measurement of the proportional loss
- Establishing groups of familiar financial assets for the purposes of measuring ECL
- Recovery rates on unsecured exposures
- Drawdown of approved facilities
- Determination of macroeconomic drivers (management overlay)
- Determination of life of revolving credit facilities
- Models and assumptions used

5.3 Valuation of Stage 3 loan facilities

The proposed cash flow was discounted using the yield of the facilities. The Credit Union makes judgements as to whether there is any observable data indicating that there is a measurable decrease in estimated future cash flows from a portfolio of loans before the decrease can be identified with an individual loan in that portfolio. This evidence may include observable data indicating that there has been an adverse change in the payment status of borrowers in a group, or national or local economic conditions that correlate with defaults on assets in the group. Management uses estimates based on historical loss experience for assets with credit risk characteristics and objective evidence of impairment similar to those in the portfolio when scheduling its future cash flows.

The methodology and assumptions used for estimating both the amount and timing of future cash flows are reviewed regularly to reduce any differences between loss estimates and actual loss experience.

5.4 Expected Credit Loss on Financial Assets at FVTOCI – Equity Investments:

The Credit Union determines Fair Value equity investments are impaired when there has been a significant or prolonged decline in the fair value below its cost. This determination of what is significant or prolonged required judgement. In making this judgement, the Credit Union evaluates among other factors the normal volatility in share price. In addition, impairment may be appropriate when there is evidence of deterioration in the financial health of the investee, industry and sector performance, changes in technology, and operational and financing cash flows. These factors may give rise to the uncertainty regarding the recoverability of the carrying value in the subsequent period and/or recoverability of the amounts invested in full.

The Credit Union recognised ECL on equity investments during the year of nil (2020:nil).

ST PATRICK'S CO-OPERATIVE CREDIT UNION LIMITED**NOTES TO THE FINANCIAL STATEMENTS**
FOR THE YEAR ENDED 31ST DECEMBER 2021
(Expressed in Eastern Caribbean Dollars)**6. Financial Risk Management**

The Credit Union's activities expose it to a variety of financial risks, and those activities involve the analysis, evaluation, acceptance and management of some degree of risk or combination of risks. Taking risk is core to the financial business, and the operational risks are an inevitable consequence of being in the business. Therefore, the Credit Union's aim is to achieve an appropriate balance between risk and return and minimize potential adverse effects on its financial performance.

Overall risk management policies are set by the Board of Directors and carried out by senior management. The identification, evaluation and hedging of financial risks, where considered appropriate, are performed by senior management under guidance from the Board of Directors.

6.1 Credit Risk

The Credit Union takes on exposure to credit risk, which is the risk that a counter party will cause a financial loss to the Credit Union by failing to discharge an obligation. Credit risk is the most important risk for the Credit Union's business. Management, therefore, carefully manages its exposure to credit risk. Credit exposures arise principally in lending activities that lead to loans and advances, and investment activities that bring debt securities and other instruments into the Credit Union's asset portfolio. There is also credit risk in off Statement of Financial Position financial instruments, such as loan commitments.

ST PATRICK'S CO-OPERATIVE CREDIT UNION LIMITED**NOTES TO THE FINANCIAL STATEMENTS**
FOR THE YEAR ENDED 31ST DECEMBER 2021
(Expressed in Eastern Caribbean Dollars)**6. Financial Risk Management (Cont'd)****6.1.1 Credit risk management**

Loans and receivables

The Credit Union assesses the probability of default of individual counterparties using internal rating tools tailored to the various categories of the counter party. Overdue loans are categorized into the classes below reflecting the range of default probabilities for each class.

Duration of period of overdue loans

2 months but less than 6 months

6 months but less than 9 months

9 months but less than 12 months

12 months or more

Term deposits are placed with reputable banks and financial institutions of acceptable credit quality based on financial position, past experience and other factors.

6.1.2 Risk limit control and mitigation policies

The Credit Union manages limits and controls concentration of credit risk to members.

The Credit Union structures the levels of credit risk it undertakes by placing limits on the amount of risk accepted in relation to one borrower or groups of borrowers, and industry segments. Such risks are monitored on a revolving basis and subject to regular review by the Supervisory Committee, Credit Committee and the Board of Directors.

Exposure to credit risk is also managed through regular analysis of the ability of borrowers and potential borrowers to meet interest and capital repayment obligations and by changing these lending limits where appropriate.

ST PATRICK'S CO-OPERATIVE CREDIT UNION LIMITED**NOTES TO THE FINANCIAL STATEMENTS**
FOR THE YEAR ENDED 31ST DECEMBER 2021
(Expressed in Eastern Caribbean Dollars)**6. Financial Risk Management (Cont'd)****6.1.2 Risk limit control and mitigation policies (cont'd)**

The following specific control and mitigation measures are so utilized:

a) Collateral

The Credit Union employs policies and practices to mitigate credit risk. The most traditional of these is the taking of security for funds advanced, which is a common practice. The Credit Union implements guidelines on the acceptability of specific classes of collateral or credit risk mitigation. The principal collateral types for loans and advances are as follows:

- Mortgages over properties;
- Charges over business assets such as premises, inventory and accounts receivable; and
- Members' savings deposits.

Longer-term lending and individual credit facilities are generally secured.

b) Credit-related commitments

Commitments to extend credit represent unused portions of authorizations to extend credit in the form of loans, guarantees or letters of credit. With respect to credit risk on commitments to extend credit; the Credit Union is potentially exposed to loss in an amount equal to the total unused commitments. However, the likely amount of loss is less than the total unused commitments, as most commitments to extend credit are contingent upon customers maintaining specific credit standards.

ST PATRICK'S CO-OPERATIVE CREDIT UNION LIMITED**NOTES TO THE FINANCIAL STATEMENTS**
FOR THE YEAR ENDED 31ST DECEMBER 2021
(Expressed in Eastern Caribbean Dollars)**6. Financial Risk Management (Cont'd)****6.1.3 Impairment and provision policies**

Impairment provisions are recognised for financial reporting purposes only for losses that have been incurred at the Statement of Financial Position date based on the objective evidence of impairment. Due to the different methodologies applied, the amount of incurred credit losses provided for in the financial statements are usually lower than the amount determined from the expected loss model that is used for internal operations management and co-operative societies regulatory purposes.

The internal rating system assist management to determine whether objective evidence of impairment exists under IFRS9, based on the following criteria set out by the Credit Union:

- Delinquency in contractual payments of principal or interest
- Cash flow difficulties experienced by the borrower
- Breach of loan covenants or conditions;
- Initiation of bankruptcy proceedings
- Deterioration of the borrower's competitive position
- Deterioration in the value of collateral

Impairment allowances on individually assessed accounts are determined by an evaluation of the incurred loss at the statement of financial position date on a case by case basis, and are applied to all individually significant accounts. The assessment normally includes collateral held and anticipated receipts for that individual account.

	68,608,271	64,780,402
Credit exposure relating to off-balance sheet items:		
Loan commitments and other credit related facilities	-	-
	-----	-----
Total	<u>\$68,608,271</u>	<u>\$64,780,402</u>
	=====	=====

The above table represents a worst-case scenario of credit risk exposure to the Credit Union at 31st December 2021 and 2020, without taking account of any collateral held or other credit enhancements attached. For the on-Statement of Financial Position assets, the exposures set out above are based on the net carrying amounts as reported in the Statement of Financial Position. Based on the above figures, 72.2% (2020: 77.3%) of the total maximum exposure is derived from mortgages and loans receivables while 15.9% (2020: 10.4%) and 11.5% (2020:12%) represents investments securities and cash and cash equivalents respectively.

ST PATRICK'S CO-OPERATIVE CREDIT UNION LIMITED**NOTES TO THE FINANCIAL STATEMENTS**

	=====	=====	=====	=====

6.2 Market risk

The Credit Union takes on exposure to market risks, which is the risk that the fair value of cash flows of a financial instrument will fluctuate because of changes in market prices. Market risks arise from open positions in interest rate, currency and equity products, all of which are exposed to general and specific market movements and changes in the level of volatility of market rates or prices such as interest rates, credit spreads, foreign exchange rates and equity prices.

ST PATRICK'S CO-OPERATIVE CREDIT UNION LIMITED**NOTES TO THE FINANCIAL STATEMENTS**
FOR THE YEAR ENDED 31ST DECEMBER 2021
(Expressed in Eastern Caribbean Dollars)**6. Financial Risk Management (Cont'd)****6.2.1 Price risk**

The Credit Union's investment portfolio does not include quoted equity investment securities and its exposure to price risk is minimal since the total of these securities is insignificant in relation to its Statement of Financial Position.

6.2.2 Foreign exchange risk

The Credit Union takes on exposure to the effects of fluctuations in the prevailing foreign currency exchange rates on its financial position and cash flows. The Credit Union does not believe any significant foreign exchange risk exists at year end as all of its assets and liabilities are denominated in either Eastern Caribbean Dollars or United States Dollars. United States Dollars are translated into Eastern Caribbean Dollars at a fixed rate of EC\$2.70 for US\$1.00.

6.2.3 Interest rate risk

Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Fair value interest rate risk is the risk that the value of a financial instrument will fluctuate because of changes in market interest rates. The Credit Union takes on exposure to the effects of fluctuations in the prevailing level of market interest rates on both its fair value and cash flow risks. Interest margins may increase as a result of such changes but may reduce losses in the event unexpected movements arise.

The following table summarizes the Credit Union's exposure to interest rate risks. It includes the Credit Union's financial instruments at carrying amounts categorized by maturity dates.

	=====	=====	=====	=====	=====

Because of limited volatility in the securities markets in which the Credit Union's investments are held, the Credit Union is not unduly exposed to fair value interest rate risk.

ST PATRICK'S CO-OPERATIVE CREDIT UNION LIMITED

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31ST DECEMBER 2021
(Expressed in Eastern Caribbean Dollars)

6. Financial Risk Management (Cont'd)

6.3 Liquidity risk

Liquidity risk is the risk that the Credit Union is unable to meet its payment obligations associated with its financial liabilities when they fall due, and to replace funds when they are withdrawn. The consequence may be the failure to meet obligations to repay depositors and fulfil commitments to lend.

The Credit Union is exposed to daily calls on its available cash resources from current accounts, maturing deposits and loan draw-downs. The Credit Union does not maintain cash resources to meet all of these needs, as experience shows that a minimum level of reinvestment of maturing funds can be predicted with a high level of certainty. The Board sets limits on the minimum proportion of maturing funds available to meet such calls and on the minimum level of other borrowing facilities that should be in place to cover withdrawals at unexpected levels of demand.

Monitoring and reporting take the form of cash flow measurement, and projections for the next day, week and month respectively, as these are key periods for liquidity management. The starting point for these projections is an analysis of the contractual maturity of the financial liabilities and the expected collection date of the financial assets.

Non-derivative cash flows

The table below presents the cash flows payable by the Credit Union under non-derivative financial liabilities by remaining contractual maturities at the Statement of Financial Position date. The amounts disclosed in the table are the contractual and undiscounted cash flows; whereas the Credit Union manages the inherent liquidity risk based on expected undiscounted cash flows.

<u>As at December 31, 2021</u>	<u>1 year</u>	<u>1 to 5 years</u>	<u>Over 5 years</u>	<u>Total</u>
Deposit liabilities	42,835,523	21,216,499	-	64,052,022

Total financial liabilities	\$39,611,156	\$21,946,658	\$5,647,804	\$67,205,618
	=====	=====	=====	=====

ST PATRICK'S CO-OPERATIVE CREDIT UNION LIMITED**NOTES TO THE FINANCIAL STATEMENTS**
FOR THE YEAR ENDED 31ST DECEMBER 2021
(Expressed in Eastern Caribbean Dollars)**6. Financial Risk Management (Cont'd)****6.3 Liquidity risk****6.3.1 Funding approach**

Sources of liquidity are regularly reviewed by management and the Board of Directors in order to maintain a wide diversification by currency, geography, provider, product and term.

Assets available to meet all of the liabilities and to cover outstanding loan commitments include cash and loans due to the Credit Union by its members. The Credit Union would also be able to meet unexpected net cash outflows by selling investment securities and accessing additional funding sources.

6.3.2 Off Statement of Financial Position items**a) Loan commitments**

The dates of the contractual amounts of the Credit Union's off-Statement of Financial Position instruments that commit to extend credit to members and other facilities are summarised in the table below:

	1 to 5 years
As at December 31, 2021	-----
Loan commitments	-
	=====
As at December 31, 2020	
Loan commitments	-
	=====

b) Capital commitments

The amount of commitments for capital expenditure at December 31, 2021 was Nil (2020: Nil).

6.4 Fair value of financial assets and liabilities

Fair value amounts represent estimates of the consideration that would currently be agreed between knowledgeable, willing parties who are under no compulsion to act and is best evidenced by a quoted market value if one exists. The carrying values of the Credit Union's financial assets and financial liabilities as disclosed in the Statement of Financial Position approximate to their fair values except for the Fair Value through other Comprehensive Income investment securities, which are unquoted.

ST PATRICK'S CO-OPERATIVE CREDIT UNION LIMITED**NOTES TO THE FINANCIAL STATEMENTS**
FOR THE YEAR ENDED 31ST DECEMBER 2021
(Expressed in Eastern Caribbean Dollars)**6. Financial Risk Management (Cont'd)****6.4 Fair value of financial assets and liabilities...continued**

- i) Cash and cash equivalents
Due to their short-term nature, the carrying amounts of these assets approximate their fair values.
- ii) Loans
Loans are net of provisions for impairment. The estimated fair value of loans and advances represents the discounted amounts of estimated future cash flows expected to be received. Expected cash flows are discounted at current market rates to determine their value. The interest rates on the loans reflect the market interest rates, hence the carrying values are considered to approximate the fair value.
- iii) Investment securities
Investment securities include only assets classified as FVTOCI unquoted equity investments measured at cost and loans and receivables. The fair value of FVTOCI unquoted equity investments cannot be reliably estimated and hence these investments are carried at cost once they are not impaired.
- iv) Members' deposits and other borrowings
The estimated fair value of deposits with no stated maturity, which included non-interest bearing deposits, is the amount repayable on demand. The carrying values approximate the fair value because of their short-term nature.

The estimated fair value of fixed interest-bearing deposits and other borrowings not quoted in an active market is based on discounted cash flow using interest rates for new debts with similar remaining maturity. The interest rates on these financial liabilities reflect the market interest rates, hence the carrying values are considered to approximate the fair value.

6.5 Capital management

The Credit Union's objectives, when managing capital are to safeguard the Credit Union's ability to continue as a going concern in order to provide returns and benefits for members and others take holders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Credit Union may adjust the amount of dividends paid to members, issue new shares or sell assets to reduce debt.

Impairment of Investment Securities

The Credit Union holds investment with two CL Financial Limited Group (CL Group) entities. The CL Group having experienced significant financial and liquidity difficulties sought the assistance of the Government and Central Bank of Trinidad and Tobago. As at December 31, 2019, The Credit Union held certificates of deposit with BAICO totalling \$587,058 (2020: \$587,058), and certificates of deposits with CIBL totalling \$161,810 (2020:\$161,810).

- i) British American Insurance Company Limited – (BAICO)
 In 2009, Judicial Managers were appointed for the Antigua Branch of BAICO where the investment was held. Management, after assessing the available information including the report of the Judicial Managers with respect to the financial position of BAICO, made a 100% impairment provision for its investment amounting to \$735,077, inclusive of accrued interest.
- ii) Clico Investment Bank (CIBL)
 The certificates of deposits held in CIBL matured in 2009. A transfer agreement, dated 17 December, 2009, was signed among CIBL, First Citizen Bank Limited (FCB) of Trinidad and Tobago, and The Credit Union for the transfer and acceptance of the certificates of deposits (from CIBL to FCB), with the effective transfer date being 1 February, 2009 when new certificates of deposits were issued. By the first quarter of 2013, The Credit Union had received \$2,389,653 from FCB when the new certificates of deposits matured. Based on the foregoing information then available, management assessed that the remaining balance was unlikely to be recovered and made a 100% impairment provision against the remaining balance, inclusive of interest.

In April, 2018, the Credit Union received an interim settlement of \$346,730 from the Liquidators of CLICO Investment Bank Limited against Certificate of Deposits totalling \$526,785. As a result; the impairment provision on this investment was reduced to \$180,055 as at 31stDecember, 2017, given the transaction was treated as a subsequent event in 2017.

As at 31st December 2020, the Provision for Impairment was \$748,254 (2018: \$748,254), equal to 100% of the remaining investments.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31ST DECEMBER 2021
(Expressed in Eastern Caribbean Dollars)

15. Loans Payable (Cont'd)**Government of Montserrat**

In 2010, the Government of Montserrat introduced H.O.M.E (Home Ownership Motivates Everyone), a loan program geared towards low and middle income earners to provide them with opportunities to staircase their way to home ownership. The Credit Union agreed to intermediate the funds relating to Plan A and Plan C of the program.

The Government meets the full costs of each home construction in exchange for an equity stake equal to the full construction costs less the borrower's equity interest, secured by a charge over the property in favour of the government.

The Government provides the Credit Union with listings of preliminarily approved applicants and their data for verification. The Credit Union conducts necessary background checks and verification, and submits recommendations to The Housing Unit of the Ministry of Agriculture, Land, Housing and the Environment for final approval.

The Credit Union receive fees of one percent (1%) of the three (3%) charged on Plan C loans and two percent (2%) of the five percent (5%) charged on Plan A loans. Fees earned by the Credit Union for 2021 amounted to \$75,275 (2020:\$76,296). Interests on loans in excess of fees due to the Credit Union are held in an interest -bearing account for the Government.

As at the date of the audit report, the H.O.M.E agreement between the Government of Montserrat and the Credit Union had not been signed.

ST PATRICK'S CO-OPERATIVE CREDIT UNION LIMITED

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31ST DECEMBER 2021
(Expressed in Eastern Caribbean Dollars)

17. Statutory and Other Reserves (Cont'd)

a. Statutory reserve

Section 119 of the Co-operatives Societies Act, No. 2 of 2003 requires that the Credit Union appropriate at least 20% of its surplus to a non-distributable reserve called a reserve fund, along with fees and fines collected from its members.

b. Reserve for interest on non-performing loans

This reserve was created to set aside interest accrued on non-performing loans where certain conditions are met in accordance with IFRS 9. The Montserrat Co-operatives Societies Regulations, 2006, however do not allow for the accrual of such interest. The interest is therefore set aside in a reserve and is not available for distribution to members of the Credit Union.

c. Reserve for loan impairment

This reserve was created to set aside the amount by which the loan loss provision calculated under the Montserrat Co-operatives Societies Regulations, 2006 exceeded the loan loss provision calculated in accordance with IFRS 9. The excess is therefore set aside in a reserve and is not available for distribution to members of the Credit Union.

d. Abandoned Property

Section 35 (1) of the SPCCU Bylaws classifies an account as abandoned property if it is inoperative or inactive for at least 15 years from the last date of activity in respect of the account. Section 35(9) of the SPCCU Bylaws provides that "if on the expiration of 90 days from the date of publication of the notice under sub-Article (8), the account holder has failed to engage in any activity in respect of the account, any money in the account shall be deemed abandoned property and shall be transferred to **the Reserve Fund**. On the 20th of December 2021, the board approved the transfer of \$489,332 to be allocated to the statutory reserves after deducting fees for dormant accounts.

18. Revaluation Reserve

In 2007, the buildings were re-valued at market value by K T Engineering Consultants Limited. The surplus on revaluation at that date of \$1,610,737 was taken to a revaluation reserve account.
